SAGY is the project by the central government conducted in association with AICTE and NSS. School Empower is one of the most upcoming project for the upliftment of the school. "Punarjjani" is one of the dream project of NSS Technical Cell. Most of the furniture and bio medical equipment in government hospitals are damaged and kept aside due to lack of timely repairing or caring. Lack of technical knowledge also kept those materials to be idle. Crores of rupees are wasted in this way all over Kerala. Realising this NSS Technical Cell put forward a project named Punarjjani. It aims to rejuvenate the idle equipment and furniture and thereby to be useful to poor people who depend such hospitals for their health care.

Thejus Engineering College, Vellarakad has two vibrant N S S units. They have been serving their valuable service to the community at various places in Thrissur District. The society was enjoying the fruits of students service and realising the capacities of engineering students in various fields. Through these varied activities students also realised their abilities and there by improved their personality.
